

SUNFLOWER 2019

isea

HYBRIDS WITH HIGH OLEIC ACID CONTENT

ANCILLA

Medium-early cycle

- Resistant to temperature and water stress
- High self pollination in flowering
- Good resistance to main races of Peronospora
- Resistance to orobanche races A-B-C-D-E
- Excellent health of the plant

Medium size.
Large flower head.
Early blossoming.
High oil content.
High oleic acid content.
Final investment: 5-6.5 plants sqm.

ARCHEO

Medium cycle

- High productivity
- High self pollination in flowering
- High resistance to main races of Peronospora
- Resistance to orobanche races A-B
- Excellent resistance to lodging

Medium size.
Large, reclining flower head.
High oil content.
Excellent oleic acid content.
Final investment: 5-6.5 plants sqm.

GOLEADOR

Medium cycle

- Good productive stability
- Resistant to temperature and water stress
- High resistance to main races of Peronospora
- Resistance to orobanche races A-B
- Good resistance to lodging

Medium size.
Medium flower head.
Early blossoming.
High oil content.
Good oleic acid content.
Final investment: 5-6.5 plants sqm.

STANDARDS HYBRIDS

GLORIASOL

Medium-early cycle Conventional

- Resistant to temperature and water stress
- Good productive stability
- High resistance to main races of Peronospora
- Resistance to orobanche races A-B
- Good health of the plant

Medium size.
Medium-large flower head.
High oil content.
Final investment: 5-6.5 plants sqm.

STARSOL

Early cycle Conventional

- High productivity
- Resistant to temperature and water stress
- High resistance to main races of Peronospora
- Resistance to orobanche races A-B
- Very healthy plant
- Also recommended for delayed sowing

Medium-large size.
Medium flower head.
High oil content.
Final investment: 5-6.5 plants sqm.

RESISTANT HYBRID TO IMAZAMOX

MICHEL

Medium cycle

- Early postemergence herbicide/
weed resistant hybrid
- High productivity
- High proteins
- Particularily suitable for the central northern Italy
- High resistance to lodging
- Good resistance to main races of Peronospora
- Good resistance to main races of orobanche
A-B-C-D-E
- Good health of the plant

IMI

Medium size.
Large flower head.
High oil content.
High oleic acid content.
Final investment: 5-6.5 plants sqm.
