

# Lentil Itaca

## Strengths

Orange cotyledons

Medium-big seed

Brown colour seed

.....

## Sowing advice

Sowing density (germinated seeds/m<sup>2</sup>)

	January	February	March	April
Northern Italy	-	220-250	250-300	250-300
Central Italy	-	270-300	300-330	300-330
Southern Italy	220-250	220-250	250-300	-

## FEATURES

### Morpho-physiological characters

Plant height	37-40 cm
External seed colour	brown
Internal seed colour	orange
Seed size	medium-big
Plant type	erect
Seeds per pod	1-2
Cycle	medium-late

### Resistance to biotic and abiotic stress

Cold	medium resistance
Water stress	medium resistance
Dehiscence	resistant

### Qualitative characters

1.000 seeds weight	35-40 gr
Proteins (%)	24-26%
