

Durum wheat

# Maestrale

## Morpho-physiological characters

Plant height	105-115 cm
Resistance to lodging	slightly tolerant
Awn color	brown

## Resistance to biotic and abiotic stress

Oidium	tolerant
Leaf rust	medium susceptible
Septoria	susceptible
Fusarium of the ear	susceptible

## Qualitative characters

1,000 seeds weight	42-48 gr
Test weight	78-80
Protein content (%)	12-15%

## Strengths

High yield potential

Medium yield stability

Alternative
